CONTENTS

NUMBER 1

S. E. Aly	1	A theoretical analysis of a solar/fuel-assisted Brayton cycle for cooling purposes
W. Fuhs	7	Amorphous silicon solar cells
G. Reisinger, J. Müller and **W. Mühlbauer**	17	Development of an air-conditioning system for greenhouses in hot and dry climates
K. W. Böer	21	State-of-the-art in photovoltaic research and application
P. J. Musgrove	37	Wind energy conversion: recent progress and future prospects
S. Quraeshi	51	Solar/wind power plants
S. Quraeshi	55	Costs and economics of wind turbine generators for electrical power production
N. I. Al-Hamdani and **A. I. Ahmad**	59	Thermal behaviour of a building envelope in a hot arid climate
Short Communications		
N. I. Al-Hamdani and **A. I. Ahmad**	71	Effect of window parameters on indoor thermal environment of buildings
A. Soler and **F. Soriano**	77	The dependence of cloudiness and turbidity of the monthly average daily diffuse–global correlation
A. Soler	81	The dependence on turbidity and cloudiness of the distribution of the monthly average hourly diffuse, global and direct radiation
H. P. Garg and **S. N. Garg**	95	Statistical analysis of solar radiation on variously oriented sloping surfaces
Book Review	109	
Calendar of Events 1987	111	

NUMBER 2

H. P. Garg and **S. N. Garg**	113	Improved correlation of daily and hourly diffuse radiation with global radiation for Indian stations
Y. Telahun	127	Estimation of global solar radiation from sunshine hours, geographical and meteorological parameters
M. A. C. Chendo, M. R. Jacobson and **D. E. Osborn**	131	Liquid and thin-film filters for hybrid solar energy conversion systems
A. Hammache and **E. Bilgen**	139	Photovoltaic hydrogen production for remote communities in northern latitudes
G. Almonacid, A. Luque, J. D. Aguilar, L. Almonacid and **M. Lara**	145	Analysis of a photovoltaic static concentrator prototype

A. M. Salau, T. A. Kuku and J. O. Akinnifesi	151	Vacuum deposited $KPbI_3$ films for use in photothermal conversion
A. Fasulo, L. Odicino and D. Perello	157	Development of a CPC with low thermal losses
A. A. M. Sayigh	163	The iso-radiation map for the Arab region
A. Soler	179	Various radiation and sunshine correlations
Short Communications		
A. Soler	191	Estimation of the monthly average hourly global, diffuse and direct radiation
S. C. Mullick, A. Malhotra and S. K. Nanda	195	Optimization of the geometry of a seasonally adjusted solar concentrator by the discrete maximum principle
V. V. N. Kishore, V. V. Ranga Rao and P. Raman	201	A portable shallow solar pond water heater
J. G. M. Massaquoi	205	Predicting diffuse radiation where only data on sunshine duration is available
M. J. Santamouris and R. Rigopoulos	211	Estimating the atmospheric water vapor transmission for solar radiation models
O. Zarty and A. El Juddaimi	215	Computational models of a rock-bed thermal storage unit
M. N. Dalimin and P. Kumar	219	A computational analysis of the amount of solar energy reaching the Earth's atmosphere
M. B. Sukhera and M. A. R. Pasha	229	Solar radiation maps for Pakistan
Book Reviews	239	
Calendar of Events 1987	241	

NUMBER 3

M. J. K. Alghatam	243	Solar-powered air-conditioning system investigation using the finite element method
I. Gonzalez G.-Barquin and J. Aguilar-Peris	269	Transient thermal behaviour of a nonconvecting solar pond
B. H. Khoshaim	281	Shaping of large scale metal membrane concentrator
W. Ogana	291	Wind energy development in Kenya—a review
V. M. Shrestha	305	Modification of the solar cooker
Z. Zrikem and E. Bilgen	313	Ventilation of dwellings using solar chimneys in North African climate
M. M. Abdel Wahab	319	Predicting global radiation from a satellite and a numerical model: a comparative study
A. A. Martell, N. N. Safronova, V. L. Sujanov and A. M. Maliarenko	325	High efficiency silicon crystal solar cells
M. E. Rivera G.	331	An analysis of Guatemalan wind potential

M. A. Yaghoubi and **A. Sabzevari**	337	Studies on simulations of passive solar buildings
C. M. Lampert	347	Advanced optical materials for energy efficiency and solar conversion
E. B. Orozco	381	Guatemalan solar map
A. Goetzberger	389	Potential uses of transparent insulation materials for thermal collectors and in buildings
Technical Notes		
G. A. Adegboyega	395	An investigation of room temperature "oxidized" thin films of Al for photovoltaic applications
M. C. Bhatnagar, J. C. Joshi and **A. K. Mukerjee**	399	Determination of tracking error in an automatic sun tracking system
R. Gopalakrishnan and **G. Sankar Kumar**	405	Wind energy potential in the state of West Bengal, India
G. Lewis	407	Optimum tilt of a solar collector
G. Lewis	411	Optimal sizing of a collector for a solar domestic water heating system
Calendar of Events 1987	415	

NUMBER 4

K. Lutz, W. Mühlbauer, J. Müller and **G. Reisinger**	417	Development of a multi-purpose solar crop dryer for arid zones
H. M. Ali and **M. Akhlaghi**	425	Experimental study in a shallow solar pond
S. M. Bin Gadhi, R. S. Agarwal and **S. C. Kaushik**	431	Nucleate pool boiling heat transfer coefficient for methanol-salt mixture ($LiBr.ZnBr_2$) solutions: experimental studies
A. Tamimi	443	Performance of a solar still with reflectors and black dye
J. Doria, M. C. de Andrés and **C. Armenta**	447	Electrochemical solar ponds hybrid thermal and electric storage
T. Kiatsiriroat, S. C. Bhattacharya and **P. Wibulswas**	451	Performance analysis of multiple effect vertical still with a flat plate solar collector
A. M. Hasson and **R. Hussain**	459	Effect of polyethylene mulch on soil temperature variation under planted greenhouse in aridic region
M. R. I. Ramadan	467	Performance investigation of single crystal silicon solar cells fabricated by diffusion technology
Ş. Kunç	473	The thermo-optical properties of some solar absorbers
A. H. Musa, M. Al-Riahi and **S. Hikmat**	483	Direct and spectral direct solar beam measurements for Baghdad, Iraq

M. Rizk	491	Wind characteristics and the available wind energy in Egypt
M. A. Mohsen, I. A. Olwi and **M. A. Ghazi**	501	Aerodynamics and ventilation in buildings: experimental investigation
D. De Gol, R. Festa and **C. F. Ratto**	509	A simple expression for computing the daily extraterrestrial irradiation on a horizontal surface
Short Communications		
S. I. Al-Azzawi and **N. A. Zeki**	513	Comparison between the characteristics of wind power calculations and solar radiation energy of some meteorological stations in Iraq
M. N. Dalimin	517	Testing photovoltaic module under field operating conditions
K. Tennakone	521	Optimum photosynthetic energy storage and energy harvest efficiencies of a plant community
Book Reviews		
A. A. M. Sayigh	525	Wind Power Plants—Theory and Design. By D. Le Gourieres
J. C. McVeigh	525	Solar Passive Building: Science and Design. By M. S. Sodha, N. K. Bansal, P. K. Bansal, A. Kumar and M. A. S. Malik
J. C. McVeigh	525	Energy for Rural and Island Communities IV. By J. Twidell, I. Hounam and C. Lewis
Corrigendum	527	
	i	Volume Contents and Author Index for Volume 4, 1987
